ESTRO®
COLLEZIONI

INDEX

The story of the Vanity 9 collection through ambient solutions, evocative scenarios and technical insights. A volume dedicated to the contemporary bathroom, linked to the theme of emotions and well-being.

A journey that goes beyond aesthetics and functionality to delve deeper into the theme of comfort in a refined and exclusive environment, where the dialogue between volumes, surfaces and lines translate into sophisticated and timeless elegance.

Raccontiamo la collezione **Vanity9** attraverso soluzioni ambientali, scenari evocativi e approfondimenti tecnici. Un volume dedicato al bagno contemporaneo, legato al tema delle emozioni e del benessere.

Un viaggio che va oltre l'estetica e la funzionalità per approfondire il tema del comfort in un ambiente raffinato ed esclusivo, dove il dialogo tra volumi, superfici e linee si traduce in un'eleganza sofisticata e senza tempo.

ABOUT US

Estro has reinvented the way we experience interiors with products of sophisticated design to achieve complete functional and aesthetic well-being. At Estro Collezioni we believe in creating 'individual' and aesthetically refined solutions for our customers through ad-hoc development of projects that use unique style and architecture.

The production is all made in Italy through manufacturing companies with great technical experience that can achieve the desired level of craftsmanship while making essential use of advanced technologies.

Thanks to the continuous confrontation between craftsmanship and new trends, we always work to maintain our strong values and have as mission the provision of customized services using the best materials and attention to detail combining functionality and aesthetics.

The goal of our team founded by Alla Tereshchuk and Paolo Ciacci, wants to give the bathroom an ideal dimension that translates into the constant search for a balance between traditional craftsmanship and technological experimentation.

Estro ha reinventato il modo di vivere gli interni con prodotti dal design ricercato atti ad ottenere un completo benessere funzionale ed estetico.

Noi di Estro Collezioni crediamo nella creazione di soluzioni 'individuali' ed esteticamente ricercate per i nostri clienti attraverso uno sviluppo ad hoc di progetti che utilizzano stile ed architettura uniche.

La produzione è tutta realizzata in Italia attraverso aziende manifatturiere di grande esperienza tecnica in grado di raggiungere il livello di artigianalità desiderato pur con l'uso essenziale di tecnologie avanzate.

Grazie al continuo confronto tra artigianalità e nuove tendenze, lavoriamo sempre per mantenere i nostri valori forti ed avendo come missione la fornitura di servizi su misura utilizzando i migliori materiali e la cura dei dettagli coniugando funzionalita ed estetica.

L'obiettivo del nostro team fondato da Alla Tereshchuk e Paolo Ciacci, vuole conferire all'ambiente bagno una dimensione ideale che si traduce nella costante ricerca di un equilibrio tra tradizione artigianale e sperimentazione tecnologica.

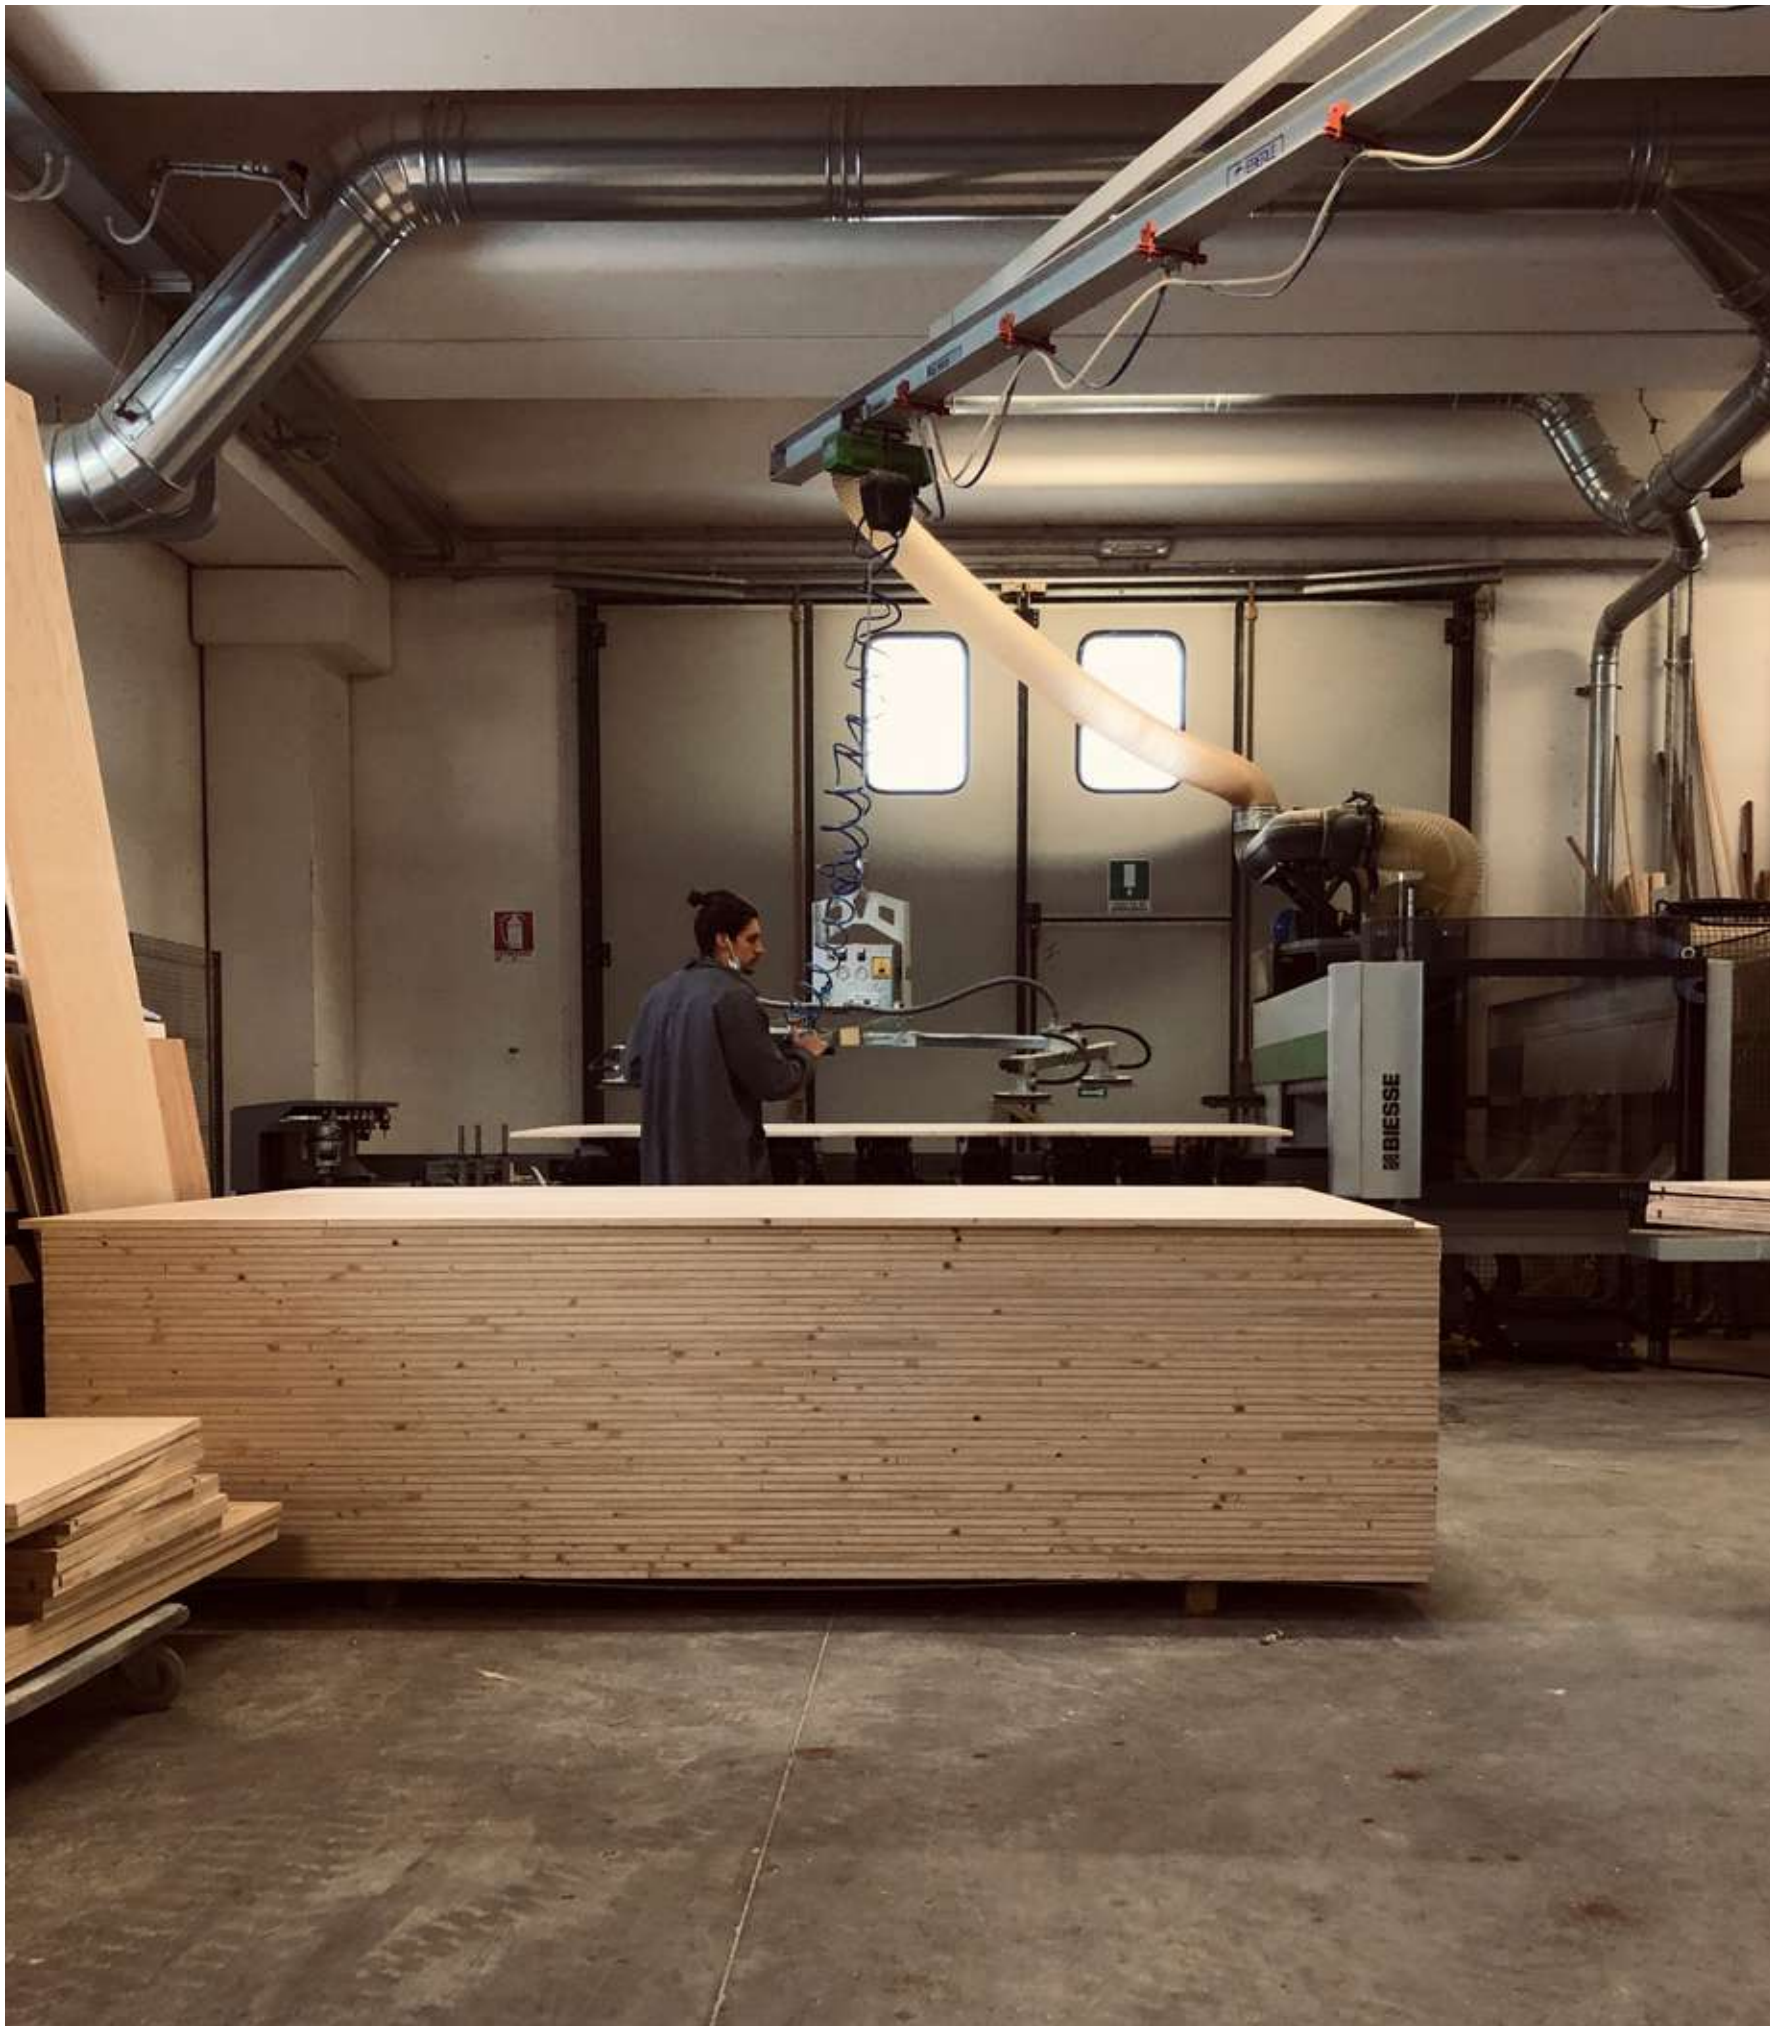

CRAFTMANSHIP

Sensational quality is born from the sophistication of craftsmanship embodied with passion for quality improvement, inherited techniques, new ideas and skills and desire to challenge traditional design. Finding the perfect products to revitalize the bathroom interiors with extreme functionality is the primary step in renovation or in producing new designs. With time, our company has transformed into something ambitious together with passion. We put together our experienced team of highly skilled craftsmen to build on to transform the best materials and their unique textures of natural stones, veneers, metals, marbles, into fine furniture products based on timeless elegant designs.

For a compelling bathing experience choose bathroom products that are customized and moulded as per the demand of modern household and lifestyle. Craftsmanship supports building better products. We believe that high-quality products require skilled artisans who are the soul of our company. Much of their work is based on an exclusive study of materials quality that contributes directly to making customized products progressing towards our mission and vision to produce a stunning bathroom. Bathroom products are developed considering the practical side of elements, standard materials and well-thought designs. Our products are closer to fine art with the best approach to timeless collections and they are the products made with a decade of experience. We realized in advance that it is important to not only symbolize and manufacture what people need today but to adapt to the blooming and pristine designs of tomorrow. As tastes, degree of comfort and needs evolve, so will our products make things better.

La qualità nasce dalla raffinatezza dell'artigianato, dalla passione per il miglioramento delle tecniche ereditate, delle nuove idee e abilità e dal desiderio di sfidare il design tradizionale. Trovare i prodotti perfetti per rivitalizzare gli interni del bagno con estrema funzionalità è il passo primario nella ristrutturazione o nella produzione di nuovi design. Con il tempo, la nostra azienda si è trasformata in qualcosa di ambizioso. Abbiamo costruito un team di artigiani esperto su cui costruire e trasformare i migliori materiali e texture di pietre naturali, impiallaccature, metalli, marmi, in prodotti di arredamento eleganti e senza tempo.

Gli artigiani qualificati sono l'anima della nostra azienda. Gran parte del loro lavoro é basato sullo studio di materiali di qualità scelti considerando il lato pratico degli elementi, i materiali standard e il design ben pensato. Ci siamo resi conto in anticipo che è importante non solo ideare e produrre ciò di cui la gente ha bisogno oggi, ma anche anticipare l'evoluzione del gusto e delle esigenze di domani, in prodotti che permetteranno il più alto grado di comfort possibile.

MOOD

Essential harmony

La armonia essenziale

Estro dares to change the paradigm of a classic bathroom aesthetic: elements flash a revolutionary twist in style while preserving full functionality.

A compelling collection that combines traditional and modernity, V.9 pieces do commute a sophisticated vocabulary of shapes and forms which rewrite the aesthetics of the contemporary bathroom interiors.

Estro osa cambiare il paradigma di un'estetica classica del bagno: gli elementi fanno balenare una svolta rivoluzionaria nello stile, pur conservando la piena funzionalità.

Una collezione avvincente che combina tradizione e modernità, gli articoli V.9 condividono un vocabolario sofisticato di forme e riscrivono l'estetica degli interni del bagno contemporaneo.

MATERIALS PALETTE

Materials selected with care based on their specific properties

Materiali selezionati con cura per le loro proprietà specifiche

Technical requirements related to the presence of water, vapour and body care substances have to be combined with a universal motive for simplicity and elegance. This awareness has led us to perform specific research in the choice of materials: we opted for the best of modern sophisticated designs that resemble the natural textured stones or marbles, natural wood and glass in textured or mirrored or transparent form. Selected with care, based on their specific properties, the materials used by Vanity9 are combined harmoniously towards a meticulous goal: to provide stylistically multiple interpretations that are driven by a common vision based on the quality of aesthetics and timeless appearances. The high glossy palette of finishes make the bathroom feel sparkling perks and mirror cabinets provide good views. The bathroom is designed from specifically researched templates with various choices of exclusive materials both of natural and synthetic types to meet comfort level and enhanced quality of aesthetics and utility choices.

Le esigenze tecniche legate alla presenza nell’ambiente di acqua, vapore e sostanze per la cura del corpo devono essere combinate con semplicità ed eleganza. Questa consapevolezza ha portato ad una ricerca specifica nella scelta dei materiali con l’offerta migliore del design moderno e sofisticato. Questo, ad esempio, ricorda le pietre naturali strutturate o i marmi, il legno naturale e il vetro in forma testurizzata o specchiata o trasparente. Selezionati con cura in base alle loro proprietà specifiche, i materiali utilizzati da Vanity9 vanno verso un un unico obiettivo: fornire diverse interpretazioni stilisticamente guidate da una visione basata sulla qualità dell’estetica e sul comfort delle soluzioni.

Vanity 9, the first of the Estro Collezioni collections, is the result of in-depth research into the evolutionary process of design combined with an accurate study of the latest production processes and materials in the production of bathroom and wellness furniture.

Our team, thanks to various experiences, has generated 'ideas' inspired by different shapes, materials and textures. We took inspiration from our Italian cultural heritage to create pieces with functional references, using only fine materials.

The balance between such different materials is the essential element of the collection.

At the heart of it all is the freedom of technical creativity and the desire to create a line of timeless products that reflect a new way of experiencing the bathroom area.

Vanity 9, prima tra le collezioni di Estro Collezioni è il risultato di una ricerca approfondita del processo evolutivo del design combinata con uno studio accurato dei più recenti processi produttivi e dei materiali nella produzione di mobili per il bagno e il benessere.

Il nostro team, grazie alle varie esperienze, ha generato 'idee' ispirate a diverse forme, materiali e texture. Abbiamo preso ispirazione dal nostro patrimonio culturale italiano per creare pezzi con riferimenti funzionali, utilizzando solo materiali di pregio.

E' essenziale aver trovato l'equilibrio nella combinazione di materiali così diversi, fondendo corpo e sostanza nella visione d'insieme. Alla base di tutto ci sono la libertà della creatività tecnica e il desiderio di creare una linea di prodotti senza tempo che riflettono un nuovo modo di vivere la zona bagno.

SATURNO

SCRIGNO

Created with exclusive attention to details SCRIGNO is ESTRO's "Jewellery Box" and like in every Jewellery Box, it's all about its doors.

SCRIGNO

Created with exclusive attention to details, SCRIGNO is Estro's 'Jewellery Box', and like in every Jewellery Box, it is all about its doors.

Scrigno is a perfectly symmetrical design, available in two possible solutions, floor-mounted and wall-mounted. In either configuration, the design language does not change.

SCRIGNO has a central metal insert available in different Estro finishes such as brushed and polished bronze, brass and nickel.

On both sides of the central metal band, two finely crafted wooden doors stand out. The marble top completes the cabinet.

Scrigno has all the character to be the perfect vanity for any residential and hospitality restroom. It has the essentials to be a timeless piece.

Creato con un'attenzione esclusiva ai dettagli SCRIGNO è il "Portagioie" di ESTRO e, come in ogni Portagioie, l'attenzione è tutta nelle sue ante.

Scrigno è un design perfettamente simmetrico, disponibile in due possibili soluzioni, a pavimento e a parete. In entrambe le configurazioni, il linguaggio del design non cambia.

SCRIGNO ha un inserto metallico centrale proposto in diverse finiture di Estro come bronzo spazzolato e lucido, ottone e nichel.

Su entrambi i lati della fascia metallica centrale, spiccano due ante in legno finemente lavorate. Il piano in marmo completa il mobile.

Scrigno ha tutto il carattere per essere la vanità perfetta per qualsiasi toilette residenziale e di ospitalità. Ha gli elementi essenziali per essere un pezzo senza tempo.

FRAME

FRAME is our homage to Marble.

FRAME

Frame is an element that Estro has created to glorify one of the most beautiful materials that Mother Nature has created, Marble.

Italy is known for being the land of beautiful marble, for the different types available and for the unique art of handling and sculpting it.

With the same attention to detail and the passion of an old school craftsman, ESTRO has chosen numerous types of marble to suit the style of the V9 collection.

With FRAME we wanted to enclose and protect the marble in a precious wood and metal case and make it stand out with a dedicated internal lighting system.

FRAME is our homage to marble.

Frame è un elemento che Estro ha creato per glorificare uno dei materiali più belli che Madre Natura ha creato, il Marmo.

L'Italia è conosciuta per essere la terra dei bellissimi marmi, per le diverse tipologie disponibili e per l'arte unica di saperlo trattare e scolpire.

Con la stessa attenzione ai dettagli e la passione di un artigiano della vecchia scuola, ESTRO ha scelto numerosi tipi di marmo adeguati allo stile della collezione V9.

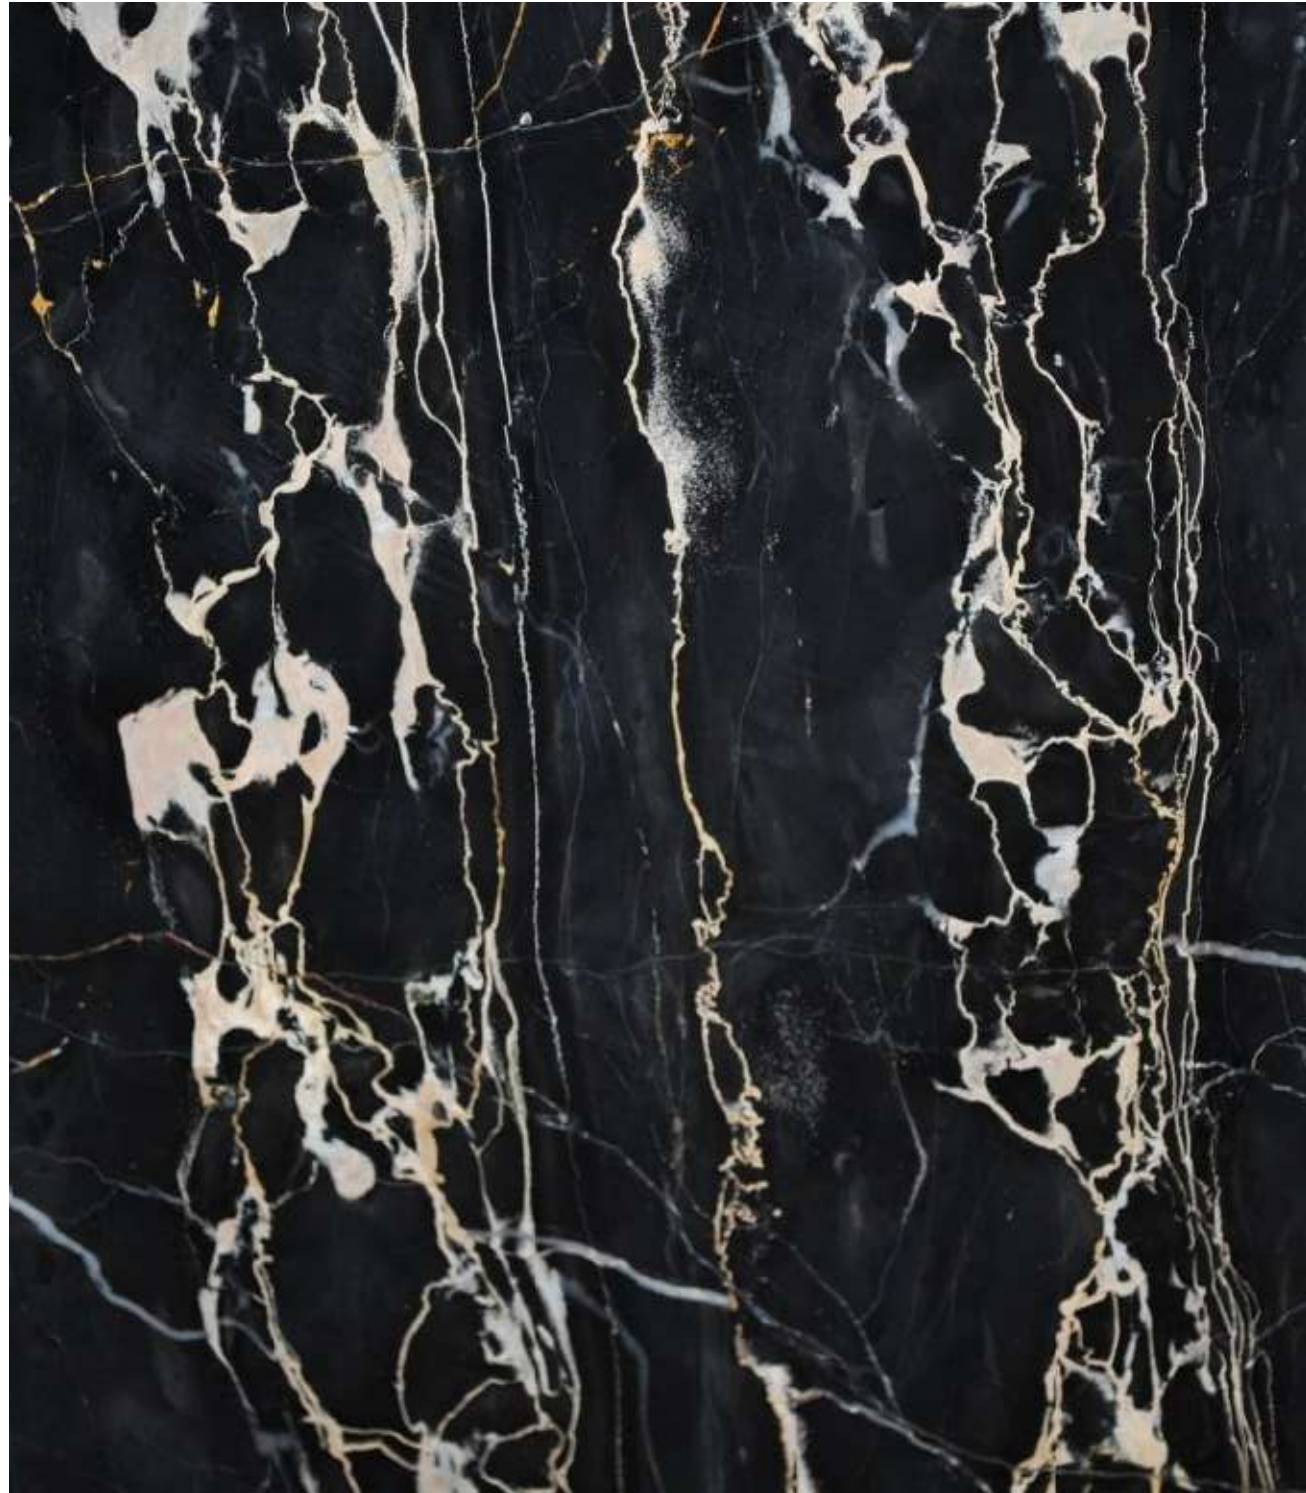

Con FRAME abbiamo voluto racchiudere e proteggere il marmo in una preziosa teca in legno e metallo e farli risaltare con un dedicato sistema di illuminazione interno.

FRAME è il nostro omaggio al marmo.

MAXIME

It's all about transparency and design flexibility.
MAXIME is a composable vanity with a great modularity

MAXIME

Maxime is designed transparent and flexible with a focus on optimizing modularity. Its doors which are finely crafted with a solid wood structure available in multiple finishes.

Transparency comes to life thanks to the inner part of the shutters which are available in a range of glass and decorative mirrors. The marble top completes the aesthetic balance.

Maxime è progettato trasparente e flessibile con una particolare attenzione alla ottimizzazione della modularità.

Le sue ante finemente lavorate con una struttura in legno massiccio disponibile in molteplici finiture.

La trasparenza prende vita grazie alla parte interna delle ante che sono disponibili in una serie di vetri e specchi decorativi. Il piano in marmo completa l'equilibrio estetico.

BISHOP

Bishop features clean-lines for a cosmopolitan allure in our V.9 collection, ideally fit for any modern, sophisticated interior.

BISHOP

Bishop is designed to combine modern styling with an aura of elegance and refinement, employing sharp profiles and figures for this unique bathroom vanity. Bishop features clean lines for a cosmopolitan appeal in our V.9 collection, ideally fit for any modern, sophisticated interior.

The glass or mirror doors are available in a wide range of finishes and colours, from matte to glossy lacquers in trendy shades: they will render your bathroom interiors uniquely personal.

Among other things, Bishop's personality is revealed by the way of its key elements are constructed. The metal handles of the door and the lower corner of the mirror are strongly inclined, giving this piece of furniture an out-of-the-ordinary look, making it absolutely unique.

Bishop è progettato per combinare lo stile moderno con un'aura di eleganza e raffinatezza, per mezzo di profili e figure taglienti per questo design unico.

Bishop è caratterizzato da linee pulite per un fascino cosmopolita nella nostra collezione V.9, ideale per qualsiasi interno moderno e sofisticato.

Le ante in vetro o specchio sono disponibili in un'ampia gamma di finiture e colori, dalle laccature opache a quelle lucide in tonalità di tendenza: renderanno i vostri interni bagno unicamente personali.

La personalità di Bishop è tra l'altro rivelata da come sono costruiti due dei suoi elementi chiave. Le maniglie metalliche dell'anta e l'angolo inferiore dello specchio sono fortemente inclinati, regalando a questo mobile un look fuori dal comune, rendendolo assolutamente unico.

LEYA

Leya is the beautiful, precious jewel of a furniture piece still missing in your home.

Leya is a vanity blessed with soft, feminine and delicate shapes. The edges and forms are designed around the concept of a cabinet with a character that blends well in many bathroom and wellness interiors. Leya is a wall-mounted unit with a precisely symmetrical design, beautifully balanced by two Main drawers, previously finished by metallic half-moon knobs. The unit revolves around the skilfully carved marble top, accommodating six 'secret' drawers carefully lined with metallic inserts. Leya's handcrafted wooden elements will be available in several options of veneers, unique water-resistant laminates and lacquered finishes. Leya is the beautiful, precious jewel of a furniture piece still missing in your home.

Leya è una vanità dalle forme morbide, femminili e delicate. Bordi e forme sono disegnati intorno al concetto di mobile che rispecchia lo stile degli interni dei bagni per il benessere. Leya è un mobile a parete con un design precisamente simmetrico, splendidamente bilanciato da due cassetti principali, preziosamente rifiniti da pomelli metallici a mezzaluna. L'unità si evolve intorno al piano in marmo sapientemente intagliato, ospitando sei cassetti "segreti" anch'essi in marmo. Gli elementi in legno lavorati a mano di Leya sono disponibili in diverse opzioni di impiallaccature e finiture laccate.

GIOTTO

Giotto brings up to mind the perfect circle, a line drawn on paper without a compass and without flaws.

GIOTTO

A flawless marble countertop available in multiple sizes, reminiscent of modernity and industrial design, is paired with beautifully handcrafted 3D clean-cut drawers with a fluid design, available in multiple sizes and modules, a combination synonymous with dynamism plus innovation. The central door incorporating a perfect engraved circle gives Giotto a unique and unforgettable character. Giotto is a very ductile model that adapts to different types of spaces and needs. The central door is the fixed element from which evolves the modularity and versatility of the furniture.

Un impeccabile piano d'appoggio in marmo disponibile in più misure, che richiama la modernità e il design industriale, è abbinato a cassetti splendidamente lavorati a mano con taglio netto 3D, dal design fluido, disponibili in più misure e moduli, una combinazione sinonimo di dinamismo più innovazione. L'anta centrale che incorpora un cerchio perfetto inciso dà a Giotto un carattere unico e indimenticabile.

Giotto risulta un modello molto duttile che si adatta a diversi tipi di spazi e di necessita. L'anta centrale è l'elemento fisso da cui si evolve la modularità e versatilità del mobile.

GRAVITY

The solidity of the marble, the sharpness of the brass and the warmth of the walnut wood are precious combined in Gravity.

GRAVITY

The solidity of the marble, the sharpness of the brass and the warmth of the walnut wood are precisely combined in Gravity. The real particularity of this piece is hidden in its architecture.

The 'interrupted' metal structure creates a perceptive contrast on the suspension of the piece of furniture which remains very solid thanks to its internal architecture.

La solidità del marmo, la nitidezza dell'ottone e il calore del legno di noce sono preziosamente combinati in Gravity. La vera particolarità di questo pezzo è nascosta nella sua stessa architettura.

La struttura metallica così interrotta crea un contrasto percettivo sulla sospensione del mobile che rimane molto solido grazie all'architettura interna del mobile.

SEBASTIAN

Sebastian, a piece out of the ordinary, with a unique character.

SEBASTIAN

There are nine vanities in our collection: Sebastian is the soul and vision of Estro. Estro dares to change the paradigm of a classic bathroom aesthetic: elements flash a revolutionary twist in style while preserving full functionality. All revolves around the central doors, a skilfully carved marble circle, framed by magnificently handcrafted metal profiles. The soft edges of the structure are perfectly crafted and available in many veneers and lacquered finishes. Sebastian is the main character in the space, a piece harmoniously combining glamour and convenience.

Ci sono nove vanità nella nostra collezione: Sebastian è quella che sfrutta al massimo l'anima e la visione di Estro. Estro osa cambiare il paradigma di un'estetica classica del bagno: gli elementi fanno balenare una svolta rivoluzionaria nello stile pur conservando la piena funzionalità. Tutto si evolve intorno alle porte centrali, un cerchio di marmo sapientemente intagliato, incorniciato da profili metallici magnificamente lavorati a mano. I bordi morbidi della struttura sono perfettamente lavorati e disponibili in molte impiallaccature e finiture laccate. Sebastian è il protagonista dello spazio, un pezzo che combina armoniosamente glamour e comodità.

SATURNO

Saturno started when elaborating the primordial idea of framing two geometries together, like a planet and its rings.

SATURNO

Saturno was born from the idea of framing two geometries together, like a planet and its rings.

The design goal, in this case, floats around crisp, clean shapes, elaborated with precious metal frames surrounding spherical light fixtures.

Saturno is a wall-mounted or freestanding washbasin, available in different combinations of materials and in three standard sizes, with single or double basin. In Saturno metal, wood and marble coexist in a delicate balance, making this piece of furniture a unique protagonist of the space.

Saturno nasce dall'idea di inquadrare due geometrie insieme, come un pianeta e i suoi anelli.

L'obiettivo del design, in questo caso, fluttua intorno a forme nitide e pulite, elaborate con cornici di metallo prezioso che circondano apparecchi sferici di luce.

Saturno è un lavabo a parete, disponibile in diverse combinazioni di materiali e in due misure standard, con lavabo singolo o doppio.

In Saturno metallo, legno e marmo convivono in un delicato equilibrio, rendendo questo mobile un protagonista unico dello spazio.

MATTONE GOLD MARQUINA

Vanity9 collection created with series of accessories and advanced techniques to complement the offer of a comfortable living and enrich the whole bathroom experience. The collections include sophisticated mirror designs from decorative to the mirror cabinets to make bathroom design distinctive and stylish with various forms. Towel holders designed to the idea of providing an integrated solution and handles comes with chrome plated, brass and black metallic finishes. These bathroom accessories are part of the offer that complements furniture designs like cabinets, vanity designs and are in line with the style and philosophy of Vanity9.

La collezione Vanity9 è stata creata con una serie di accessori per completare l’offerta per una vita più confortevole e arricchire l’intera esperienza del bagno. Le collezioni includono sofisticati disegni di specchi, da quelli decorativi agli armadietti a specchio per rendere il design del bagno distintivo ed elegante. Porta-asciugamani e maniglie progettate per fornire soluzioni integrate, disponibili con finiture cromate, ottone e nero. Questi accessori per il bagno abbinati con mobili come madie e poltroncine completano l’offerta di funzione e stile della collezione Vanity9.

A new home collection is unravelling with varied interior furniture components in line with the V9 series.

FURNITURE

An unabashedly retro inspiration – on a more conservative scale and with the kind of painstaking construction that expresses time-tested artisan craftsmanship. The Minerva armchair, featuring soft padding in the seat cushion and the seat back, extends a comfortable welcome. The Pewter colour metal feet accent Minerva’s fine design style.

Un’ispirazione smaccatamente retrò – un tipo di costruzione accurata che esprime un artigianato collaudato nel tempo. La poltrona Minerva, caratterizzata da una morbida imbottitura nel cuscino della seduta e nello schienale, offre un’accoglienza confortevole. I piedi in metallo accentuano il raffinato stile di design di Minerva.

Dafne is a collection of inviting armchairs that offer a feeling of intimacy while expressing a formal elegance. The armchair rests on an elegant round upholstery backrest and seat and elegant Pewter-colour metal feet. Distinctive features of the Dafne armchair are its precise proportions and tailored construction that is evident in the utter perfection of the round shape upholstery backrest connecting with the seat.

Dafne è una collezione di poltrone invitanti che offrono una sensazione di intimità pur esprimendo un’eleganza formale. La poltrona poggia su un elegante schienale e sedile rotondo imbottito e su eleganti piedi in metallo. Le caratteristiche distintive della poltrona Dafne sono le sue proporzioni, la sua costruzione sartoriale resa evidente nella perfezione assoluta della forma rotonda dello schienale imbottito collegata alla seduta.

CUPIDO

Pouffe of varying shapes and sizes complete the seating system and are distinguished by the metal strips insert, which bestows a unique decorative appeal on each element. Cupido can be placed as a complement to configurations and bring that extra touch of glamour and style to the space.

Pouf di varie forme e dimensioni completano il sistema di sedute. Si distinguono per l’inserto metallico, che conferisce un fascino decorativo unico ad ogni elemento. Cupido può essere collocato come complemento alle configurazioni e portare quel tocco extra di glamour e stile allo spazio.

DIONISIO

Pouffe of varying shapes and sizes complete the seating system and are distinguished by the plisse velvet detail, which bestows a unique decorative appeal on each element. Dionisio can be placed as a complement to configurations and bring that extra touch of glamour and style to the space.

Pouf di varie forme e dimensioni completano il sistema di sedute e si distinguono per il dettaglio in velluto plissettato, che conferisce un fascino decorativo unico ad ogni elemento. Dionisio può essere collocato come complemento alle configurazioni e portare quel tocco extra di glamour e stile allo spazio.

The series of Virgilio consoles, featuring pure, uncluttered lines, expands to include a family of sideboards. The design recall the Frame model of the V9 collection. The choice of elegant, luxurious materials contrasts the studied simplicity of the design. The structure is in metal with wood cabinet on top with a frame in marble. They are available in different veneer with opaque lacquer finish, while the metal is on brass finish.

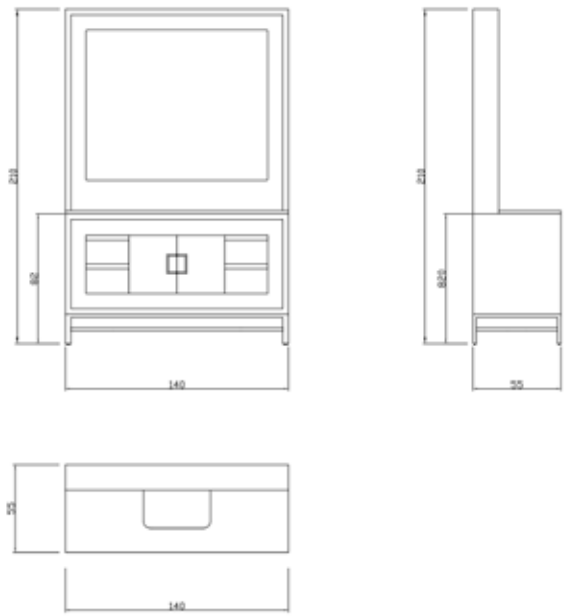

La serie di consolle Virgilio, caratterizzata da linee pure e senza fronzoli, si amplia con una famiglia di credenze. Il design richiama il modello Frame della collezione V9. La scelta di materiali eleganti e lussuosi contrasta la studiata semplicità del design. La struttura è in metallo con mobile in legno nella parte superiore con una cornice in marmo. Sono disponibili in diverse impiallaccature con finitura

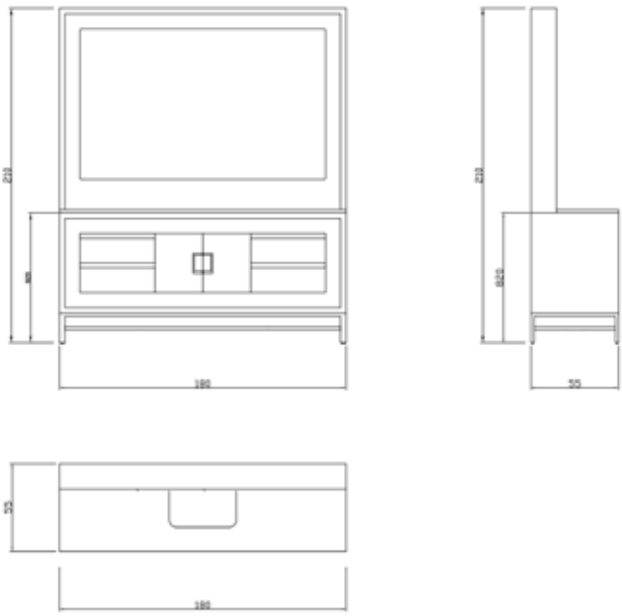

laccata opaca e diverse finiture metalliche.

RIGHETTATO

EMPERADOR DARK

Emperador Dark is a historical stone used throughout the colonial buildings of the Iberic Peninsula. It is the most popular brown marble in the market. Its dark brown color with defined white veins are the qualities that highlighted the beauty of this stone for many centuries.

MARQUINA

It is fine-grained and has a deep black background crossed by a thick web of golden yellow, thread-like veins. The blocks are of medium-small size and their value is increased by their limited availability Being a very delicate marble, it is used mainly for interiors. Its beauty is enhanced by polished finishes.

CARRARA

This is the finest of the Carrara Whites and has a white background with faint grey spots. Due to its fine grain and particular hardness, Carrara White c Marble is suitable for many uses - countertops, washbasins, showers, floors and tiles.

TRAVERTINO ROMANO AL VERSO
Fine-grained, very porous material. Wide choice available due to the variety of materials and cuts; colours vary from straw-yellow to hazel and white. The preferred cut is the cross-cut, creating slabs with horizontal veins. It is a resistant material, suitable for both interior and exterior environments.

PORT LAURENT
The marble Port Laurent is a natural black stone with unique intense and luxurious golden veins. This rock is perfect for indoor use.

GRIGIO OROBICO
The Arabescato Grigio marble is a sedimentary arenaceous lithotype textured with fine-grained gray colored overall. The resistance of this marble to low temperatures, makes it perfect for outdoor paving and covering and indoor use.

ARABESCATO VAGLI
Arabescato Vagli is a stunning brecciated Italian marble. Its cloudy white clasts are suspended in a pinkish background intersected by grey-green veins, for a sophisticated look unique to each slab.

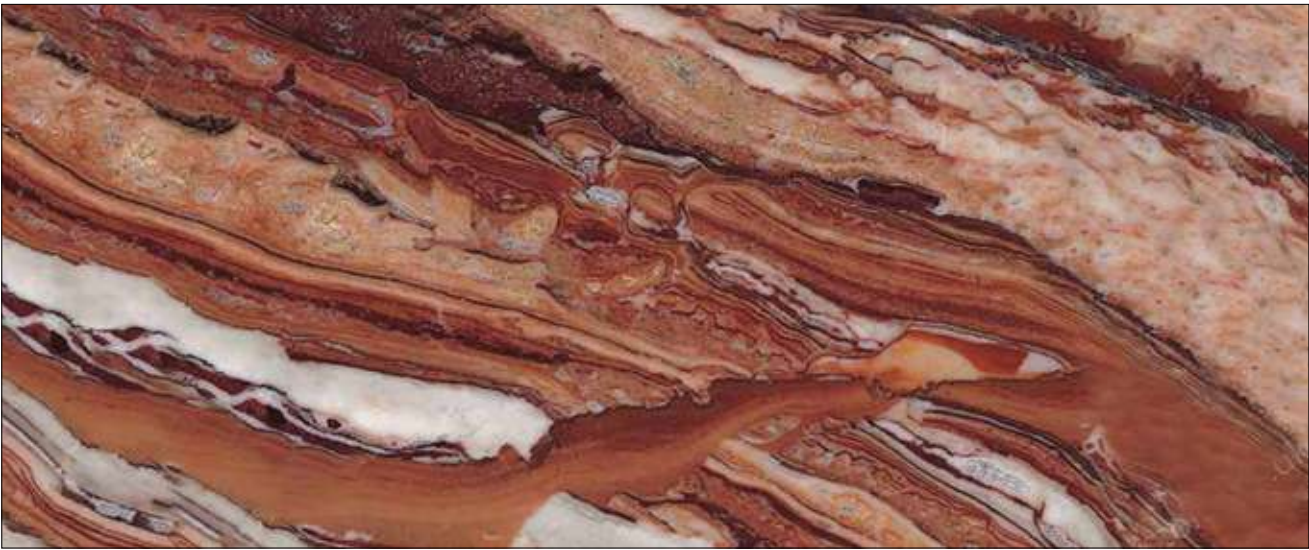

PIETRA GREY
Pietra Grey is a calcite grey marble. Uniform in appearance and compact, the tones of its base move very subtly between carbons and graphite. The alternation between very fine white streaks and barely perceptible linear slate-colored glazes provide animation and elegance.

CREMA CIELO
A cascade of delicate and soft colors descend sinuously and cover the entire surface of this fine marble. The fluent Crema Cielo enhances the spaces and gives a sense of lightness and spontaneity thanks to the wavy streaks that create a constantly evolving smooth shape.

EXPLOSION BLUE
Deep hues of blue energetically flow through the canvas of the incredible Explosion slabs. A complimenting vein with hues of violet and cream move across the richly coloured slab, creating the ripple effect that gives this slab its unique identity.

ARABESCATO OROBICO ROSSO
Arabescato Orobico Rosso is an historically valuable Italian marble extracted from the quarries of Bergamo, in light gray and white color with shades of red, suitable for indoor environment.

PATAGONIA
Patagonia quartzite is one of the most particular and scenographic stones existing in nature. A stone characterised by strength and hardness with graphic effects of extraordinary beauty. The slabs of this material are characterised by an extraordinary mix of shapes and colours. The variety of elements we find in Patagonia quartzite is due to the different rocks and minerals that take part to its formation. It is in fact a volcanic stone extracted in Brazil.

BRECCIA ANTICA
It is a kind of black marble quarried in Italy. This stone is especially good for Countertops, monuments, mosaic, exterior - interior wall and floor applications, fountains, pool and wall capping, stairs, window sills and other design projects.

BOTANIC GREEN
Botanic Green is an exquisite Brazilian quartzite with electric greens and hints of red. Cross-veining keeps the canvas lively, while the overall layering of colors feels serene.

CALACATTA GOLD
This marble has a pure ivory-white background with few fine, grey-beige veins, making it extremely highly-prized. It has limited availability compared to the Carrara Whites. The blocks are approx 3.00x1.70x1.70m in size. It is delicate and fine-grained, and suitable for interiors - floors, wall-tiles, showers, vanity tops.

CALACATTA
Fine-grained and pure ivory-white background enriched by medium-thick, grey-beige veins. Its delicate quality makes it especially suitable for interiors. Its availability is limited compared to the Carrara Whites.

BIANCO STATUARIO
This has a pure milk-white background with few, fine, grey veins. Its availability on the market is limited compared to the Carrara White Marbles. Statuario has a delicate quality and medium-fine grain, making it suitable for interiors - floors, wall-tiles, showers, vanity tops.

PORTORO
It is fine-grained and has a deep black background crossed by a thick web of golden yellow, thread-like veins. The blocks are of medium-small size and their value is increased by their limited availability. Being a very delicate marble, it is used mainly for interiors. Its beauty is enhanced by polished finishes.
