COLLECTION

Revival expresses Estro's way of inspecting the balance between matter and form, amidst minimal and décor language.

Heterogeneous materials such as wood, marble and steel alternate in a light composition with 3D surfaces used as an accent. The metal handles describe the space around the console, emphasizing the form and incorporating functionality.

Revival esprime il modo in cui Estro esamina l'equilibrio tra materia e forma, tra linguaggio minimal e décor.

Materiali eterogenei come il legno, il marmo e l'acciaio si alternano in una composizione leggera, con superfici 3D utilizzate come accenti. Le maniglie in metallo descrivono lo spazio intorno alla consolle, enfatizzando la forma e incorporando la funzionalità.

A close-up, low-angle shot of a lit cigarette. The cigarette is positioned vertically on the left side of the frame. A thin, wispy trail of white smoke rises from the tip, curling and expanding as it moves upwards. The smoke forms a large, billowing cloud that fills the upper right portion of the image. The background is a solid, deep black, which makes the white smoke stand out prominently. The lighting is soft and focused on the cigarette and the smoke, creating a dramatic and moody atmosphere.
